Main Distributors for  
**Stehlin Hostag & Hosmann-Steinberg.**

In house ink mixing service to create  
Pantone Guide Colours.  
With next day delivery where ever possible.

## Introducing New Quickson Inks

### Quickson PRO

#### Universal duct fresh offset ink

- excellent work and turn properties and stays open in the ink duct overnight
- suitable for all sheetfed offset presses and in particular for perfecting (4+4)
- vegetable based low VOC ink
- works well in combination with infra-red drying units, offering an even faster setting and drying
- suitable for a wide range of finishing applications, like UV varnish, aqueous coating, foil or lamination
- full range of Quickson PRO compatible Quickson Series PANTONE Basic.

### Quickson PLUS

process colour inks bring a depth of colour to any job,

making the image leap from the page. Formulated to work on a wide range of substrates from uncoated and coated paper to card stock and PE-board, Quickson PLUS inks are particularly suitable for multi-colour printing on one or two colour offset presses.

Quickson PLUS inks are made on the basis of specially formulated varnishes through which there is a significantly lower water absorption. The result is an easy to use offset ink with excellent press stability, which can be used for a wide range of printing jobs on small, medium and large sized offset presses. For clean, crisp text and rich solids that stand up and shout, choose Quickson PLUS.

For colours so real you can almost taste them choose Quickson inks, made by Van Son, and used by professionals... the choice is yours.

### Quickson PREMIUM

Another new offset ink available is Quickson Premium a vegetable oil based ink aimed at B1, B2 & B3 press market that the company says can help printers achieve ISO 12647-2 standards.

Quickson Premium has a fast and efficient water pick up, which enables printers to achieve faster make readies with reduced waste and provide on the run consistent colour and desirable dot gain values.

It also allows for the possibility to run with lower water and ink settings, which both aid drying and reduce the potential for set-off and subsequent marking in the bindery.

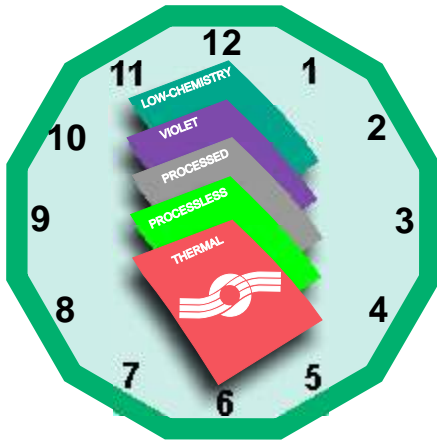

### Quickson PANTONE

Quickson Series PANTONE Basic Colours provide the solution you need to precisely match the designer's choice from the PANTONE Colour guides, or even specially formulated corporate or branded colours Quickson Series PANTONE inks are formulated to work in combination with the Quickson PRO, Quickson PLUS and Quickson PREMIUM process colours.

PRINTING SOLUTIONS

ES3640proMFP  
+ Finishing Unit

Embedded EFI send me technology with its edit and image correction tools allows the Es3640pro to provide a secure document portal for Microsoft Share point and other Document Management systems in a simple one step operation.

## ES9410

Consistent colour,  
standout results and  
superior media flexibility

Print shop perfect for all high colour coverage short run print jobs on a wide range of media types and sizes.

Developed especially for the commercial and digital print environments, the ES9410 produces consistent, high quality output for demanding professional applications. It delivers high quality oversized A3 output and offers outstanding performance, media flexibility, ease of use, proven reliability and is a digital colour printer users can stake their reputation on.

## ES3640a3

Print performance  
for wide-ranging  
print environments

The ideal choice for in-house printing on a wide variety of media types and sizes.

The ES3640a3 is the perfect partner for those wanting to print affordable oversized A3 prints on heavier paper stock with accurate colour. This is an affordable package for Windows and MAC users alike and comes with super efficient processing for a fast turnaround of ad hoc jobs on different media sizes.

## ES3640pro

Colour control and  
outstanding productivity  
for light production

EFI Fiery® workflow with precise control for the colour-critical print room.

The ES3640pro digital colour printer is a combination of OKI Printing Solutions tried and tested engine technology with an EFI Fiery® System 8e controller delivering workflow control, precision colour and cross platform accuracy. A suite of Utilities - including Command WorkStation, EFI ColourWise & EFI SpotOn - enable digital colour printing at its very best.

one world  
infinite possibilities

### ES3640pro MFP

Advanced document workflow with colour excellence

Controlled colour, document workflow and a suite of tools for the print shop.

The ES3640pro MFP has all the powerful printing, copying, scanning and faxing functionality you would expect but that's not all. It comes with an embedded EFI Fiery® controller and Command Workstation for stunning colour quality, subtle shading and smooth gradations. Plus embedded EFI SendMe™ adds distributed document workflow.

### ES8430

Compact A3 colour printer for the creative professional

Vibrant colour output on A3 for the busy design and creative studio.

The stylish, compact design of the ES8430 delivers huge benefits to design studios, graphic artists and other creative users by being able to print A3 as well as A4. It has standard PostScript and is designed for Windows and MAC users alike. Exceptional colour pages are delivered at up to 30ppm.

### ES8460 MFP

Compact A3 MFP for enhanced efficiency and a brilliant colour experience

Brings true multifunctionality with brilliant colour output to the graphic design agency.

The ES8460 MFP is an A3 colour MFP with flexible media handling and high-definition colour output at an affordable price. It is easily accommodated in the smallest of studios and yet enhances the creative teams efficiency by delivering high-quality colour printing, double sided copying, flexible scanning and faxing in a single device.

## COLOUR LIBRARIES ON BOARD

### ColorMunki Design

#### **MEET COLORMUNKI DESIGN**

The innovative new way to create your own world of color. Ideal for agencies, corporate in-house and freelance designers, this do-everything solution gives you the freedom to design with any color from the visible spectrum, even ones you never thought possible. Select colors from Pantone® PMS and Goe™ libraries, image libraries or capture spot colors from just about any surface, plus preview out-of-gamut by paper type. Includes essential color control functions for calibrating displays, projectors and printers with spot color optimization with a fully integrated all-in-one device. Now you can swing from inspiration to production without losing color quality.

Now you can take the colours you need with you with X-Rite.  
Use your own colour standards or load one of the included Pantone digital libraries.  
Then make measurements and instantly find the closest match from the library, what could be easier.

### EasyTrax Auto Scanning System

EasyTrax is X-Rite's NEW semi-automated color scanning system for producing accurate CMYK and CMYK + 2 color jobs. Available in multiple press sizes from 20" to 40", EasyTrax comes on a measurement board for easy installation and can be adapted to other after-market consoles. EasyTrax includes a black backing so you can achieve or maintain ISO certification, and the characterization data sets for G7 or PSO process control are available to support your efforts to achieve ISO standards. EasyTrax has the ability to take a scan measurement or spot measurement anywhere on the sheet making EasyTrax the perfect solution for press-side color control for smaller format color presses or for primarily process color environments.

#### **Versatile measurements**

Allows to take measurements anywhere on the sheet.

#### **Spectral and Density from one measurement**

Save time taking only one measurement but still receive all the necessary information for preflight and pressroom adjustments.

#### **Scanning measurement of ink density**

EasyTrax quickly shows the press operator how far from the tolerance the density of ink is, so adjustments can be made quickly, getting to the right color faster, while saving time, and reducing waste.

#### **Error detection**

EasyTrax signals the user if the color bar is out of alignment, ensuring you don't end up with false readings.

#### **Precise color bar alignment**

EasyTrax allows for alignment of the color bar with laser precision and skew adjustment. You can quickly see if the color bar is aligned, speeding make-ready time and increasing measurement accuracy.

# Yesterday We Printed With Alcohol, Today We Print Alcohol Free With

Prisco is a world-renowned innovator in alcohol-free offset printing. Our research and development efforts are geared to keep up with the growing demands of high-speed printing and changes in the materials used in the printing process. Prisco is committed to develop new products that reduce or eliminate environmental pollutants.

Prisco's 3551 Plus 2 Fountain Solution Concentrate is a one-step fountain solution concentrate designed for use on sheetfed presses. It combines the latest innovations in fountain technology in an easy to use concentrate. A "universal" formula, its strong buffer system permits use in most water conditions. It is especially effective in eliminating alcohol on continuously dampened presses.

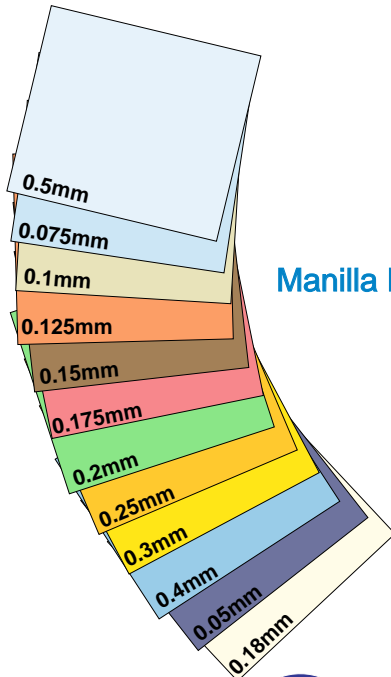

### Advantages of Prisco 3551 Plus 2

- Prevents plate blinding and picture framing
- Buffered for use in most water conditions
- Effectively eliminates fungus growth
- Eliminates the need for alcohol
- Improves ink drying
- Phosphate-free for less impact on the environment
