

SAFETY DATA SHEET

1) IDENTIFICATION

Product Name: NOVOSPEED RTU DEVELOPER
Champion Product Code: 160120
Supplier: CHAMPION PHOTOCHEMISTRY
INTERNATIONAL LIMITED
Hubert Road
Brentwood
Essex CM14 4JE
United Kingdom
Telephone No: + 44 (0) 1277 263646
Fax: + 44 (0) 1277 260832

2) COMPOSITION/INFORMATION ON INGREDIENTS

Product Description:

A ready to use photographic developer. The following components contribute to hazard.

Component	CAS NO	%w/w
Hydroquinone	123-31-9	1-2
Sodium Hydroxide	1310-73-2	0.5-2

3) HAZARDS IDENTIFICATION

Human Health Hazards:

Irritant; irritating to eyes and skin.

Safety Hazards

Contact with acids liberates irritant gas (SO₂).
Contact with photographic fixer may liberate irritant gas from the fixer, (NH₃).

Environmental Hazards:

Will cause short term oxygen depletion if allowed to enter aquatic environment.

4) FIRST AID MEASURES

Eyes:

Flush immediately with eye-wash solution or clean water for several minutes holding the eyelids apart. Obtain medical attention.

Inhalation:

Inhalation of the product is unlikely to occur. In the event of inhalation move to fresh air and obtain medical attention. No vapour hazard exists under normal conditions of use.

Skin Contact:

Remove any contaminated clothing. Wash skin with cold water then thoroughly with a neutral, (non-alkaline) cleanser and water. Thoroughly wash contaminated clothing before re-use. Obtain medical attention if irritation develops.

Ingestion:

Rinse mouth with water and drink about two glasses of water. Do not induce vomiting. Obtain medical attention.

IN ALL CASES OF DOUBT OR IF SYMPTOMS PERSIST, SEEK MEDICAL ADVICE. SHOW THE PRODUCT LABEL AND THIS SAFETY DATA SHEET TO THE DOCTOR

5) FIRE-FIGHTING MEASURES

Not classified as flammable (water based). If involved in a major fire, harmful gases (CO, SO₂) could be produced.

Extinguishing Media:

Suitable for the surrounding fire.

Protective Equipment:

Self-contained respiratory equipment.

6) ACCIDENTAL RELEASE MEASURES

Personal Protection:

When dealing with spillages of concentrate or working strength solution, use the personal protection specified in Section 8. Ensure spill area is well ventilated.

Environmental Precautions:

Prevent large spillages from entering drain by absorption into inert absorbent material (eg. dry sand or earth) and transfer to a container for disposal by a licensed waste contractor. Wash small spillages to drain with copious amounts of water.

Cleaning Up:

After collecting the bulk of the spillage thoroughly wash area to drain with water.

7) HANDLING AND STORAGE

Handling:

When handling product concentrates, avoid contact with eyes, skin and clothing and avoid inhaling vapour. Use in a well ventilated area. Avoid contact with the working strength solution and avoid inhaling vapour. After handling, the routine use of a neutral, (non-alkaline), hand cleanser will minimise the risk of adverse skin reaction.

Storage:

Store in a dry, well ventilated area at a moderate temperature. Store away from incompatible substances, (see Section 10).

8) EXPOSURE CONTROLS/PERSONAL PROTECTION

Relevant Exposure Limits:

None.

Engineering Measures:

Ensure good ventilation or local exhaust ventilation of the working area.

Hand Protection:

Wear impervious gloves when handling concentrates and to prevent contact with the working strength solution.

Eye Protection:

Wear safety glasses with side shields as the minimum level of protection. Provide eye-wash bottles in the immediate working area.

9) PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Colourless to very pale yellow liquid

Odour: Slight

pH at 20°C: 10.55

**Weight per ml
at 20°C:** 1.10g

Freezing Point: <0°C

Flammability: Not flammable

**Solubility
in water:** Completely soluble

10) STABILITY AND REACTIVITY**Stability:**

Stable under recommended storage conditions.

Materials to avoid:

Avoid contact with strong acids and oxidising agents. Avoid contact with photographic fixer, (Ammonia may be liberated from the fixer)

Hazardous Decomposition Products:

None under normal conditions of use.

11) TOXICOLOGICAL INFORMATION**Eye Contact:**

Likely to cause irritation. If eye-washing has not been prompt and effective, irritation may be severe.

Skin Contact:

Prolonged or repeated contact may cause irritation and possible sensitisation.

Ingestion:

Ingestion is likely to cause irritation of the mouth and gastro-intestinal tract. Systemic toxicity is expected to be moderate.

Inhalation:

Likely to cause irritation and inflammation to mucous membrane. No vapour hazard exists under normal conditions of use.

12) ECOLOGICAL INFORMATION

The following summary of expected environmental effects is based on known data for the principal ingredients and on the physico-chemical properties of the preparation.

A moderate bio-chemical oxygen demand and high pH will result in short term oxygen depletion and increased alkalinity in the aquatic environment, with subsequent localised damage to plant and animal organisms. Harmful short term effects are rapidly reduced by dilution, oxidation and photodecomposition and the product has a very low potential to persist in a harmful form.

As a result of the above properties, precautions should be taken to avoid release of the product into the environment, (see Section 13).

13) DISPOSAL CONSIDERATIONS**Surplus Product and Working Strength Solution:**

Disposal should be in accordance with current local and national legislation and only by a licensed waste contractor. Do not dispose of either concentrate or working strength solutions into drains, sewers or waterways or on to soil.

Plastic Containers:

Rinse thoroughly with water and dispose as solid waste to land fill or re-cycle where possible.

Cardboard Cartons:

Re-cycle where possible or treat as solid waste.

14) TRANSPORT INFORMATION

Not classified as dangerous as defined by current regulations.

15) REGULATORY INFORMATION

Contains Sodium Hydroxide and Hydroquinone.

Hazard Symbol:	Xi	Irritant
Risk Phrases:	R36/38	Irritating to eyes and skin.
Safety Phrases:	S2	Keep out of reach of children
	S26	In case of contact with eyes rinse immediately with plenty of water and seek medical advice.

16) OTHER INFORMATION

The information contained in this Safety Data Sheet does not constitute the users own assessment of work place risk as required by other health and safety legislation, (eg. COSHH Regulations in the UK).
