# INTRODUCING YOUR LOCAL DISTRIBUTOR

## OFFSET SUPPLIES GROUP

Offset Supplies Group are proud to be one of the largest independent print supplies organisations in the UK. We are committed to building a mutually beneficial, long-term relationship with all our customers.

### OFFSET DIVISIONAL STRUCTURE

These divisions are designed to provide a flexible service and a wide range of products from printing inks to state of the art Computer to Plate (CTP) systems.

Our experienced technical teams in each division are on hand to advise and give an unbiased opinion.

In order to concentrate upon our customer's specific needs, our skills and experience are focused within specialist divisions: -

#### OFFSET SUPPLIES DIVISION

Ensures a fast and efficient service to our traditional print customers.

#### OFFSET SUPPLIES DIGITAL IMAGING DIVISION

Provides total digital solutions and advice on maximising your investment:

- PCs
- Scanners
- Digital Proofing Systems
- Imagesetters
- Finishing Equipment
- Macs
- Digital Printers
- Wide Format Ink Jet
- CTP Systems
- Workflow Solutions

# IDEAL SAFETY FEATURES

## THE SCS SAFETY PACKAGE

### IDEAL GUILLOTINE SAFETY

The "SCS" safety package ensures absolute operational safety during cutting and servicing. The SCS package does not compromise working speed or servicing time and in fact ensures maximum productivity at all times.

- Hinged, transparent safety guards in the working area\* or light beam safety curtain on the front table (models IDEAL 5222 DIGICUT and 7228-06 LT)
- Transparent safety cover on the rear table
- main switch and safety lock with key†
- electronically controlled true two-hand operation
- 24 volt controls (low voltage) †
- patented IDEAL safety drive‡
- automatic blade and clamp\*\* return from every position‡
- disc brake for instant blade stop‡
- easy and safe blade and cutting stick change without removing covers
- blade changing device with covered cutting edge
- blade depth adjustment from the outside of the machine.

\*The safety guard on the front table is locked mechanically during the cutting process on the manual guillotines. On the electric guillotines the safety guards are electronically controlled.

†Valid for electric guillotines

\*\*Guillotines with automatic clamp only

# UCHIDA VS-20

SINGLE SPINDLE PAPER DRILL

## UCHIDA VS-20

Stack Height 40mm	Paper Length 370mm	Drill Bit Size 6-35mm
----------------------	-----------------------	--------------------------

### SUMMARY

Table top drilling machine ideal for office or print applications where a limited amount of drill is needed to archive documents or create ring-bound presentations.

### FEATURES

- Single spindle
- 4, 5, 5.5 and 6 mm drill bits
- Self centering guides
- Transparent waste container

### IDEAL FOR

- Office use
- Archiving
- Documents
- Reports
- Manuals

# UCHIDA VS-25

SINGLE SPINDLE PAPER DRILL

## UCHIDA VS-25

Stack Height 50mm	Paper Length 376mm	Drill Bit Size 6-35mm
----------------------	-----------------------	--------------------------

### SUMMARY

Simple to operate table-top drill offering a choice of two, three or four holes from four different bit sizes and thanks to an adjustable back margin, can cover most drilling demands. A selection of pitch phase programmes ensures that the right option of drill is made for each choice of application. This programming covers non-standard paper sizes as well as A4 and A5.

### FEATURES

- Single spindle
- 4, 5, 5.5 and 6 mm drill bits
- Self centering guides
- Programmable patterns
- Locking paper clamp
- Transparent waste container

### IDEAL FOR

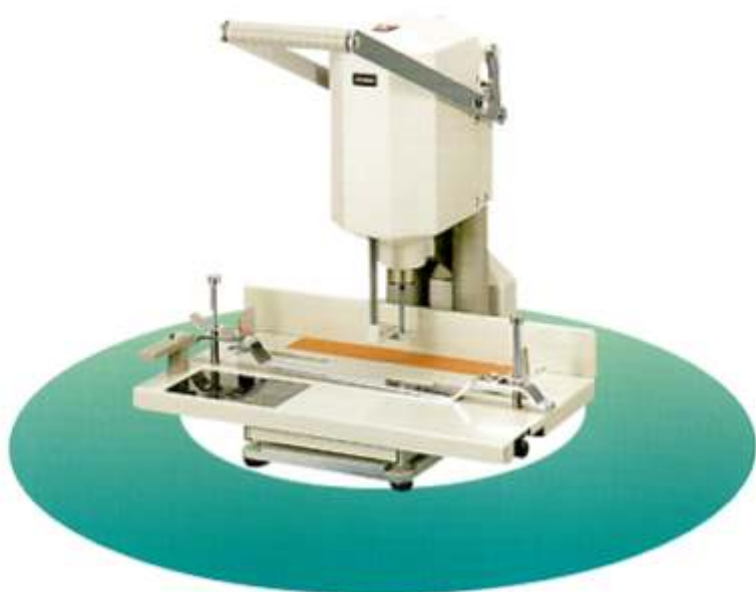

- Office use
- Archiving
- Documents
- Reports
- Manuals

# UCHIDA VS-55

SINGLE SPINDLE PAPER DRILL

## UCHIDA VS-55

Stack Height 50mm	Sheet Length 376mm	Stack Weight 6-35mm
----------------------	-----------------------	------------------------

### SUMMARY

Heavy-duty paper drill to handle regular drilling work, while retaining simplicity of use and with no loss of versatility. It is the machine to use where quantities of documents need to be drilled for correct archiving. The choice of holes drilled rises to 13mm in diameter while a 376mm maximum paper length will cover the paper formats that are most common in office use.

### FEATURES

- Single spindle
- 3 - 9 mm drill bits
- Self-centering guides
- Programmable patterns
- Locking paper clamp

### IDEAL FOR

- Reprographics departments
- Archiving
- Documents
- Reports
- Manuals

# UCHIDA VS-200

TWIN SPINDLE HEAVY DUTY PAPER DRILL

## UCHIDA VS-200

Stack Height 50mm	Sheet Length 420mm	Stack Weight 6-35mm
----------------------	-----------------------	------------------------

### SUMMARY

Twin-spindle heavy-duty paper drill for frequent drilling work of all types. The Uchida VS-200 is designed to cope with any requirement a reprographics department is likely to encounter, with a wide choice of sizes and applications covered for, as well as elements which take away any difficulties in operation.

### FEATURES

- Twin spindle
- 3 - 13 mm drill bits
- Synchronised distance adjustment
- Self-centering guides
- Programmable patterns
- Locking paper clamp

### IDEAL FOR

- Commercial printers
- Reprographics departments
- Archiving
- Documents
- Reports
- Manuals
- Sprocket-fed stationery

# MULTIGRAFDCM-52/75

HIGH-VOLUME VACUUM-FED CREASER & PERFORATOR

## MULTIGRAF-DCM-52/75

## SUMMARY

This industrial standard creasing machine come in two different feeding widths, 520 and 750mm. High volume and high performance, this is the ideal solution for the modern printer.

## FEATURES

- 2 pairs of creasing shafts
- **Heavy duty shafts**
- No flexing
- **Swiss engineering**
- Modular feed & delivery
- **Selection of creasing tools**

## IDEAL FOR

- Digital Print
- **Carboard**
- Laminated sheets
- **Folded sheets**
- Plastic sheets

# DUPLO DC-445 DUCREASER

CREASER FOR DIGITAL PRINT

DC-445

DuploDigital

## SUMMARY

The DC-445 DuCreaser is a fully automated, high production, programmable creasing solution for the short-run digital colour market. Optional perforating and slitting modules available.

## FEATURES

- Automatic suction feeder
- **No marking on sheet**
- Fully featured control panel
- **Easy for operator**
- 0.1mm increment
- **Perforating included free**
- Options: perforate & slit
- Upgrade path

## IDEAL FOR

- Greetings cards
- **Booklet covers**
- Brochures
- Leaflets
- Flyers
- **Desktop calendars**
- Folded business cards

# DUPLODC-615MULTIFINISHER

SLITTER/CUTTER/CREASER

DUPLO-DC615

DuploDigital

## SUMMARY

Developed specifically to meet the increasing demands of shorter run digital colour print, the versatile DC-615 provides a multi-functional finishing solution in one compact, easy to use package.

## FEATURES

- 6 pins, 1 knife, 1 creaser
- **Flexible & versatile**
- Slit/cut/crease
- **Range of applications**
- Single-pass finishing
- **High production levels**

## IDEAL FOR

- Business Cards
- Booklet covers
- Brochures
- Leaflets

# DUPLO INTEGRATED FOLDING SYSTEM

INTELLIGENT MODULAR FOLDING SOLUTION FOR DC-445

**DuploDigital**

## SUMMARY

Designed to extend the capability of the DC-445, the addition of an integrated modular folding system with high capacity stacking enables the creaser to complete the print finishing process for countless applications in just a single pass. The configuration above is shown with a short stacking option; just one of a wide range of possible arrangements available.

## FEATURES

- **Ease of set-up and operation**
- Folds items up to 3-across the sheet
- **Higher productivity**
- High capacity stacking
- **Longer running time**
- Straight or angled connection
- **Increased flexibility**

## IDEAL FOR

- Leaflets
- Greeting cards
- Menus
- Direct Mail

Neat stacking unit

# IDEAL8324

A4 AUTOMATIC OFFICE FOLDER

IDEAL-8324

## SUMMARY

A1 1/2b-top machine with choice of 4 pre-set folding styles. Designed primarily for office use it operates at up to 7,000 folds per hour with a four digit addition / subtraction LED counter.

## FEATURES

- Automatic setup
- **A4 (office use)**
- Fast folding speed
- **Neat pile stacking**

## IDEAL FOR

- Letters
- **Forms**
- Office stationery
- **Mailing**
- Notices
- **Memos**

# IDEAL8330

A3 FRICTION FOLDER

IDEAL-8330

## SUMMARY

An office folding machine for A4 and A3 letters and leaflets with quick and easy manual set-up of the fold plates. Pre-set/re-set counter – speed adjustable up to 8,000 sheets (A4) per hr. Handles paper from 45 to 140 gsm.

## FEATURES

- Customisable fold positions
- **Suitable for A6-A3**
- Fast folding speed
- **Neat pile stacking**

## IDEAL FOR

- Letters
- **Forms**
- Office stationery
- **Mailing**
- Notices
- **Memos**

# DUPLODF-915

A3 AUTOMATIC FRICTION FOLDER

DF-915

## SUMMARY

Designed for both speed and simplicity, the DF-915 is consistent and accurate even when running at 230 sheets per minute.

## FEATURES

- Automatic set-up
- **Quick & easy set-up**
- Six standard folding types
- **Flexible finishing**
- Top feeding
- **Reliable paper handling**
- Friction fed
- Quiet

## IDEAL FOR

- A3 or A4 folding
- **Office use**
- Menus
- **Brochures**
- Mailing applications

# DUPLODF-1000

A3 AUTOMATIC SUCTION FOLDER

DF-1000

## SUMMARY

Designed principally around the needs of the digital colour user but also suitable for folding short-run litho work, the Duplo DF-1000 is amongst the most technologically advanced suction fed folders in the market.

## FEATURES

- Automatic set-up
- **Quick & easy set-up**
- Suction belt delivery
- **No marking**
- Top feeding
- **Delicate for digital**
- Fan drive
- Quiet

## IDEAL FOR

- Coated paper
- **Greetings cards**
- Direct mail
- **Brochures**
- Menus
- **Tri-fold documents**

# EUROFOLD FEATURES

THE MODULAR FOLDING SOLUTION

## EUROFOLD FOLDERS CONFIGURATIONS TO SUIT EVERY NEED:

- Modular design allows upgrading of folding capabilities and eliminates obsolescence
- Choices of 2 or 4 plate manual or automatic settings
- Friction, bottom feed suction or deep-pile feeder
- Delivery modules can be long-stream mechanical or electric
- Swiss engineering ensures smooth running and outstanding longevity
- Quick set up & user-friendly controls guarantees maximum productivity
- Folding capacity of up to 30,000 A4 sheets per hour
- CAF control facilitates fully automatic set up

The Eurofold range is one of the most versatile professional folding solutions on the market. They manufacture a range of feeders, conveyor and transfer systems allowing you to connect the machines online to digital printers, bookletmakers, presses, creasers, coaters and other finishing machines for maximum productivity.

# AUTOBOOKIE

MANUAL DESKTOP BOOKLETMAKER

## DUPLO AUTOBOOKIE

### SUMMARY

The simplest way of turning a few printed sheets into booklets - hand feed the collated sets, decide on saddle stitching or side stapling and apply the lever and the completed booklet is stapled, folded and ejected from the machine.

### FEATURES

- Self-centering guides
- Accurate staple/fold positions
- Powered fold rollers
- Automatic booklet ejection

### IDEAL FOR

- Short-run booklet production
- Office use
- Magazines
- Newsletters
- Manuals
- Bulletins

# AUTOBOOKIEPRO

AUTOMATIC DESKTOP BOOKLETMAKER

## DUPLO AUTOBOOKIE PRO

### SUMMARY

Functional table-top hand-fed bookletmaker with electronic set-up. It creates high quality booklets in a range of sizes that are ideal for schools, churches, clubs and small handbooks.

### FEATURES

- Programmable LCD
- Variable speed
- Accurate staple/fold positions
- Powered fold rollers
- Automatic booklet ejection

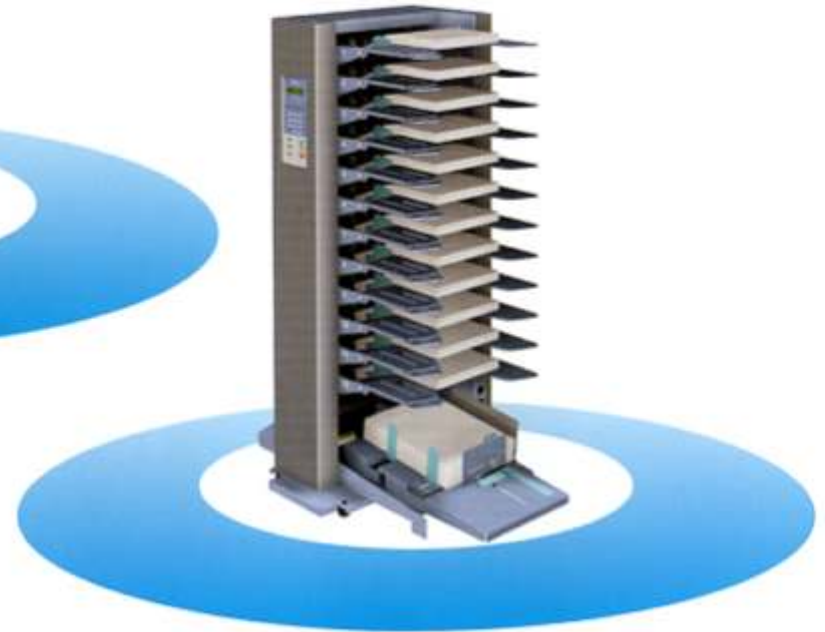

### IDEAL FOR

- Short-run booklet production
- Office use
- Magazines
- Newsletters
