

HF3420 HF3450

Booklet Maker
+ Trimmer

Booklet Maker shown with optional trimmer

Features

- Sensors detect paper being inserted into the machine and automatically start booklet cycle.
- Variable time control between paper insertion and stapling, for operator convenience.
- Easily accessible controls for easy adjustment, without tools, of paper/booklet size.
- Efficient production; as one booklet is being folded the next is being stapled.
- Stapling heads have a capacity of 5000 staples to facilitate longer, uninterrupted operation.
- Two fixed stapling heads for various book sizes. (HF3420 only)
- Five stapling positions, including one for corner stapling. (HF3450 only)
- Edge stapling.
- Side guides set 15mm wider than paper for easier/faster insertion.
- Side guides move in to jog the set.
- Drive motor automatically shuts down if machine is not being used for a period of time and restarts when paper is placed under stapling heads.
- A sensor detects when staple heads run out of staples or if there is a jam and stops the machine.
- Reset counter fitted.
- Built in conveyor/stacker folds away when not in use.
- Free standing design with castors for easy mobility.
- Robust UK design and built.

OPTIONS

Collator Interface Kit

The HF3450/3420 can be easily linked by interface to the HF2146 - 10 station collator. The interface kit includes a collator stand for correct height position between the booklet maker and collator. The HF3450 will corner and edge staple whilst on line.

On line Trimmer

When making booklets a trimmer can be linked to the booklet makers. Each stapled and folded booklet is individually clamped and held flat before a single knife trims the feathered edge of the booklet.

Specifications

| | 3450 | 3420 |
|--|-------------------------|-------------------------|
| Sheet size minimum (W x L) | 148 mm x 210mm | 180 x 210mm |
| Sheet size maximum (W x L) | 320mm x 450mm | 320 x 450mm |
