ES8460 MFP (CDXN)

ES8460 MFP (DN)

Get more print, scan, copy and fax for your money and benefit from...

SAVE TIME

Default copy mode for walk up copying. With **dedicated buttons** for each of the functions.

EASY-TO-USE

Large **touch sensitive** graphical display intuitively guides the user through each task.

CHOOSE COLOUR OR MONO

Separate start **buttons** keep users in control.

DOUBLE SIDED COPYING MADE SIMPLE

The standard 50 sheet **RADF** makes copying and scanning double sided documents easy and efficient.

PRINT EVERYDAY DOCUMENTS AND GET CREATIVE

Template Manager software lets users get creative and a **flat paper path** allows printing on a wide range of media.

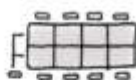

DIGITISE, STORE AND SHARE DOCUMENTS

Turn hardcopy documents into digital files with scan to folder and scan to email. (In PDF, JPEG or TIFF formats).

SAVE PAPER

Built in **duplex** delivers automatic double sided printing as standard.

AT YOUR FINGERTIPS FAXING

Fax function button and touch screen speed dials for easy access to fax destinations.

EMAIL ADDRESS LOOKUP

LDAP provides direct access to existing email address databases.

NO PC REQUIRED

Scan to USB memory stick.

RESTRICT ACCESS

Set up **rules** to grant access to the device and determine functions allowed.

EASY TO INTEGRATE AND SHARE

Network ready with PCL and Postscript makes integrating and sharing simple.

DELIVER INCOMING FAXES TO THE DESKTOP

Improve office efficiency by forwarding incoming faxes by email directly to the desktop. (Choose to print faxes or not to save on paper). Incoming faxes can also be archived in a folder.

SEND FAXES WITHOUT LEAVING THE DESK

A **fax driver** allows users to send a fax directly from an application on the PC.

PRINT SECURELY

Secure Print password protects the printing of confidential documents whilst 256bit encryption enhances network security.

PROGRAM FREQUENTLY COMPLETED OPERATIONS

A **Job Program** button allows users to record and store frequent operations for easy recall.

EASY ADDRESS ENTRY

A touch screen **QWERTY** keyboard makes the typing of email addresses easy and straightforward.

- Media weight up to 300gsm

Demanding graphics professionals can be assured that there is an Executive Series solution that has been carefully chosen to match their exacting needs. Whether it be for short run digital printing, validation proofing or many other graphic arts applications there is a product to match those needs.

Customers judge graphic arts professionals by the quality of their work so it makes sense for them to invest in a digital colour printer that will consistently and dependably deliver the high quality output that they'll be happy to put their name to.

Short Run Jobs

Turn time consuming short run jobs into a profitable business opportunity with a digital colour printer that can print on a huge range of media, and maximise revenue from every job.

Full Bleed

The ES9410, ES3640pro and ES3640a3 easily handle oversized media from all trays so printing and trimming to make full bleed prints is simplicity itself.

Proofing

Validation proofing is fast and cost effective with the ES9410 and ES3640a3 when partnered with EFI's Colorproof XF software RIP.

Colour Critical Applications

Precisely matching that colour is simple with OKI's in box colour matching tools and with the ES3640pro an embedded Fiery controller brings workflow control, precision colour, cross platform accuracy and a suite of user friendly tools to enable digital colour printing at its very best.

Business Cards

The most commonly requested job is the business card. Yet how many customers need 500 at a time. Produce as many as the customer needs or as few as one sheet of business cards at a time (up to 300gsm).

LED is the technology of choice for the demanding commercial print market, delivering toner based digital print presses that have a completely flat paper path, enabling exceptional media weight handling (up to 300gsm) and sizes from A6 to SRA3.

ES3640pro Key Features

PCL/PS AUTO DUPLEX SRA3/A4
