

PANTONE Formula 2 Guide Set

This two-guide set contains 1,114 PANTONE colours on coated and uncoated stocks. This latest edition has been redesigned in a larger format which provides more colour area with which to work, improved readability of important colour data and better accessibility to all colours on the pages. The formula guide is an essential tool for graphic designers, pre-press professionals and printers. Its simple design provides a convenient and portable colour reference.

PANTONE Formula Guide Coated, Uncoated, Matte

The Formula Guide is a necessary tool for graphic designers, pre-press professionals and printers. Its simple design provides a convenient and portable reference that can accompany you at client presentations or on press. This three-guide set contains 1,114 PANTONE Colours on coated, uncoated and matte stocks. The latest edition now includes an RGB icon indicating colours achievable on-screen. Colours that bear both the RGB and CMYK icons are ideal choices for designs that will span cross-media. Other recent enhancements include larger format with more colour area, improved readability of colour data and better accessibility to all colours.

PANTONE Metallic Formula Guide (Coated)

This much broader, even more spectacular palette of colours adds impact to printed materials like never before. Now features 301 PANTONE Colours printed on coated stock, complete with ink formulas.

PANTONE Colourbridge Coated Euro Guide

Indispensable reference tool used to select and specify solid PANTONE colours on coated stock, determine how a PANTONE colour will appear when reproduced in CMYK and create optimal display of PANTONE colours on monitors and Web pages. Previously known as the PANTONE Solid to Process Guide. The new name reflects the substantial enhancements incorporated into this remake of the old favourite, including: Improved process matches and updated CMYK screen percentages. Greater utility with sRGB and HTML values added for solid colours. Increased colour area with taller, wider layout. Whiter, more durable coated paper. Produced using a complete digital workflow.

PANTONE 4-Colour Process Guide Euro

The spot colour alternative, the PANTONE 4-color process guide set Euro contains over 3,000 chromatically arranged CMYK colour combinations on coated or uncoated stock (168 pages of each stock with 18 colours per page). These guides are an ideal way to visualise, communicate and control colours for type, logos, borders, backgrounds and other graphics treatments. Screen tint percentages are provided to enable accurate colour reproduction. The 4-color process guide set Euro features: extra guide, two-column layout, reduced bulk and weight, Cyan, Magenta, Yellow and Black displayed as 25%, 50% and 75% tints produced using a complete digital workflow

PANTONE Essentials Euro

True to its name, PANTONE Essentials Euro includes six indispensable colour guides that every print and graphic design professional should have to ensure quality results. Formerly known as the ultimate survival kit, this value package offers a cost-effective way to upgrade your PANTONE collection with a full set of the latest guides. You'll get everything you need to select, spec and match solid and process colours. And if that wasn't enough, you'll also receive a stylish carrying case to protect your investment during trips to the client or on press runs.

PANTONE Solid Chips 2 Book Set
